EXECUTIVE SUMMARY

Strategic product leader with 15+ years across consumer technology, enterprise **platforms**, and AI-native systems. Currently leading Wayfair's enterprise GenAI platform — a cross-cutting AI capability layer spanning engineering velocity, supplier catalog intelligence, and consumer **search** — deployed across **2,800+ engineers** and 15,000+ employees in 8 countries, delivering **\$300M business impact** and \$15M engineering cost reduction. Prior Director PM run at Cimpres (CTL) on a personalisation platform generating \$3.2B GMV across 13 subsidiary brands. Four years at Amazon shipping the industry-first AI/ML recommendation engine (\$1.2B annualised) and across 800M+ customers, 10M+ sellers, and 20+ international marketplaces. Track record in B2B SaaS **platform strategy**, **API platform** development, cloud infrastructure, marketplace, **payments**, **fintech**, subscriptions, and enterprise data platforms; scalable deployment, infrastructure reliability, and stakeholder alignment; go-to-market execution, enablement, and P&L ownership. **Cross-functional** team leader (teams of 10–21 across PM Managers, UX, Data Science, Engineering); operates fluently across **product strategy**, technical architecture (LangChain/LangGraph, **RAG**, multi-LLM orchestration, microservices), and C-suite engagement.

PROFESSIONAL EXPERIENCE

Senior Manager, GenAI Product Management

Oct 2024 – Present

Wayfair

- **Led Wayfair's enterprise GenAI platform** — a cross-cutting AI capability layer spanning engineering velocity, supplier catalog intelligence, and consumer **search** — deployed across **2,800+ engineers** and 15,000+ employees in 8 countries, delivering **\$300M business impact** and \$15M engineering cost reduction (developer velocity +15%, release speed +25%, service availability 98%).
- **Secured \$2M AI/ML investment and multi-year** partnerships with Google, Microsoft, and Cursor via C-suite strategy rhythm; Advisory Committee (8 VPs), Champions Group (20+), 500-adopter beta triaging 200+ feedback items — lifting satisfaction +400 bps, beating Q1/Q2 MAU targets by 140% and 250%
- **Currently shipping Catalog Autofill** — a GenAI product auto-generating supplier catalog attributes from unstructured data, extending the **platform** to the supplier surface; roadmap: Customer **Search** (Rufus-equivalent for Wayfair's 40M+ SKU catalog), bringing the AI capability layer directly to the consumer.
- **Shipped the engineering velocity module** — **agentic** coding assistants, **RAG**-powered PR evaluation, and the **Model Proxy governance** layer unifying multi-LLM backends (Copilot/Cursor) with eval frameworks (confidence thresholds, safety guardrails, drift monitoring, HITL fallbacks) — cutting PR review time 40% and eliminating 50+ hours/week/team.

Product Advisor (Pro Bono)

Dec 2025 – Present

RADAR by AIMleap

- **Sole product advisor on a zero-to-one** LLM-first GenAI supply-chain risk **platform** for mid-market aerospace & defense manufacturers; ~40 hrs/month engagement concurrent with Wayfair role.
- **Defined a 121-day, 4-sprint plan** to May 2026 launch; ICP and go-to-market for mid-market aerospace & defense manufacturers.

Director, Product Management

Jun 2023 – Mar 2024

CTL

- **Led Data, eCommerce (Payments and Orders)**, and Access platforms for CTL's 13-brand portfolio (Vistaprint, Pixartprinting and others) — all eCommerce workflows including Payments, Order Management, and Access products — \$3.2B annual GMV across US/EU/NA.
- **Defined a 3-year platform vision** and AI/ML-powered data strategy in partnership with Engineering, Data Science, Marketing, Sales, and Operations; led consolidation of 4 subsidiary brands (BuildASign, WMD, NationalPens, Pixartprinting) onto the unified multi-tenant platform in 7 months; conducted research with 30+ enterprise customers and presented quarterly to C-suite. Role impacted by organisational restructuring.

Product Head (Senior PM)

May 2019 – May 2023

Amazon

- **Led Promotions and Payments (merchant) Platform for Amazon's worldwide promotions business** — Payments, Promotions, and Analytics products spanning 20+ international marketplaces, 800M+ customers, 10M+ sellers, and \$4B annual GMV.
- **Integrated Promotions and Payments onto a single microservices platform** on AWS EC2/ECS with RESTful APIs handling 10M+ daily transactions — achieving parity across promotion types, faster time-to-value, and a uniform merchant/customer experience while cutting new-promotion launch time 45%.
- **Shipped the industry-first AI/ML recommendation engine serving 800M+ consumers** — combining collaborative filtering, content-based filtering, and matrix factorisation — driving 40% business growth (\$1.2B annualised).

AVP

Sep 2018 – May 2019

PayTM

- **Founding team member of PayTM's B2B business and Payment Product** (PM Managers, UX, Product Operations) — owned **Payments**, Product Catalog, Order Management, and Customer Communications; defined **product vision**, strategy, roadmap, and pricing for launch and scale.
- **Launched 3 zero-to-one products (lending, bulk-buying, dynamic catalog)** — 30% adoption in the first 3 months and +Rs 25 Cr/annum incremental GMS; lifted seller conversion +15% and new-customer acquisition +20% via a streamlined, redesigned promotion-management experience (seller NPS +400 bps).

Vice President

Jun 2017 – Sep 2018

IndiaMart

- **Grew strategic subscriptions +30% by launching** the EasyPay bill-discounting integration for existing subscribers (upsell/cross-sell win) and scaling seller billing, renewal, and engagement analytics across the member lifecycle.
- **Owned IndiaMart's Big Brands subscriptions platform** (recurring-revenue, 0-to-1 monetisation model); owned pricing, packaging, renewal workflows, upsell/cross-sell motion, and customer lifecycle KPIs (retention, ARPU, CSAT, LTV) — delivering Rs. 30 Cr annualised recurring revenue, +87% gross margin, and 1,200 bps GM improvement.

Senior Manager

Jul 2016 – May 2017

LeEco

- **Owned the digital and social product roadmap** across LeEco's smart device portfolio (Smart TV, mobile, accessories); captured 40% online market share in the >55-inch Smart TV segment for LeTV and drove mobile device share growth via digital product and GTM interventions across e-commerce channels.

Senior Manager

Jun 2014 – Jun 2016

Flipkart

- **Led the seller activation, onboarding, and data intake ecosystem**, owning product and business roadmap across high-GMS categories (Rs. 2,000 Cr annualised) — catalog import, listing validation, and first-productive-sale workflows.
- **Improved seller acquisition workflow efficiency +33%** and seller NPS +200 bps; launched Regional Selection Discovery for Consumer Electronics (+80 bps CM YOY) and Selection Insights in the seller dashboard that sellers adopted to scale GMS.

Area Sales Manager, FMCG

Jun 2011 – Jun 2014

Marico Industries / AgroTech Foods Ltd

- **Managed a territory of Rs. 78 Cr/annum** across hair care, personal care, and food categories; achieved 24% YOY growth through tailored promotions and range selling — awarded 'Best Team Performance 2013–14'.

SELECTED PROJECT

Indian Stocks Deep-Dive & Trading Agents — Product Manager & Architect (June 2026)

Multi-agent **agentic** system that deep-dives Indian equity markets — fundamental analysis, technical screening, and autonomous trading strategy execution; identifies high-conviction winners using pattern recognition across NIFTY 500 universe.

EDUCATION

B.E., M.Tech, MBA (Marketing — JBIMS)
